

GEO-ENERGY EUROPE and Geothermal New Zealand Meeting – 03/02/2021

New Zealand is a global leader on geothermal energy. First, it is a leader in the share of its energy that comes from geothermal energy, being among the countries most reliant on this versatile renewable energy source, notably for electricity generation. Second, the New Zealand geothermal industry is a world leader, exporting its know-how globally. The meeting between GEO-ENERGY EUROPE and Geothermal New Zealand was an opportunity for two key geothermal industries to exchange, around their best practices, areas of expertise and create opportunities for collaboration.

Along with representatives of the GEE metacluster and GNZ, various members companies had the opportunity to expose their activities, knowledge and promote potential areas of cooperation on upcoming projects.

GEE/GT NZ Meeting Agenda 03/02/2021

- 0800hrs Welcoming Remarks - Koen Verbruggen, Director, Geological Survey Ireland
- 0805hrs GEE Introduction and Overview - Stephen Walsh, Senior Market Advisor, Geoscience Ireland
- 0810hrs GT NZ Introduction and Overview - Mike Allen, Executive Director, Geothermal New Zealand.

NZ Companies

- 0815hrs GNS Science Overview
- 0825hrs Seequent
- 0835hrs MTL
- 0845hrs Geothermal Institute (Uni of Auckland)
- 0855hrs Upflow

GEE Members

- 0905hrs Geothermal Energy Consulting s.r.l.
- 0915hrs Ordine Degli Ingegneri Della Provincia Di Pisa
- 0925hrs Geo3Conseil
- 0935hrs Nuovo Pignone Tecnologie SRL
- 0945hrs Techno System SRL
- 0955hrs Steam SRL
- 1005 Spotlight

10:15 Closing Remarks
